### **SUPPLEMENTAL EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Zilka (Reg. No. 41,429), the undersigned, on March 06, 2006 and on March 09, 2006. The application has been amended as follows:

#### **IN THE CLAIMS:**

Claim 20 has been canceled.

Claims 1, 11 and 26 have been amended.

Claim 27 has been newly added.

Claim 1 has been amended as follows:

1. (Currently Amended) A **computer-implemented** method for processing network accounting information, comprising:

- receiving accounting information over a packet-switched network;
- monitoring at least one aspect of the received accounting information; ~~and~~
- ~~after receiving the accounting information,~~ discarding at least a portion of the accounting information that occurs during a surge in network traffic, based on the

**at least one** monitored aspect ~~[[:]]~~ , **after receiving the accounting information;**

processing at least a portion of the accounting information prior to passing to subsequent accounting processing, based on ~~the monitored aspect~~ **at least one attribute of the accounting information** , after receiving the accounting information; and

allowing at least a portion of remaining accounting information to pass to the subsequent accounting processing, after receiving the accounting information;

wherein the portion of the accounting information is discarded to prevent an overload of ~~the~~ subsequent **accounting** processing.

Claim 11 has been amended as follows:

11. (Currently Amended) A computer program product ~~comprising~~ **embodied on** a computer readable storage medium having computer code embodied therein for processing network accounting information, comprising:

computer code for receiving accounting information over a packet-switched network;

computer code for monitoring at least one aspect of the received accounting information; and

**computer code for processing at least a portion of the accounting information prior to passing to subsequent accounting processing, based on at**

**least one attribute of the accounting information, after receiving the accounting information;**

computer code for discarding at least a portion of the accounting information that occurs during a surge in network traffic and is expendable, based on the **at least one** monitored aspect, after receiving the accounting information; **and**

computer code for allowing at least a portion of remaining accounting information to pass to **the** subsequent accounting processing, after receiving the accounting information;

~~computer code for processing at least a portion of the accounting information prior to passing to subsequent accounting processing, based on the monitored aspect, after receiving the accounting information; and~~

~~computer code for allowing at least a portion of remaining accounting information to pass to the subsequent accounting processing, after receiving the accounting information;~~

wherein the portion of the accounting information is discarded to prevent an overload of the subsequent accounting processing.

Claim 26 has been newly added as follows:

26. (Currently amended) A computer program product comprising **embodied on** a computer readable storage medium having computer code embodied therein for processing network accounting information, comprising:

computer code for receiving accounting information over a packet-switched network;

computer code for identifying at least one aspect of the received accounting information;

computer code for processing at least a portion of the accounting information prior to passing to subsequent accounting processing, based on ~~the identified aspect~~ at least one attribute associated with the accounting information , after receiving the accounting information;

computer code for ~~,after receiving the accounting information,~~ discarding at least a portion of the accounting information that occurs during a surge in network traffic, based on the at least one identified aspect ~~[[;]]~~ , after receiving the accounting information; and

~~computer code for processing at least a portion of the accounting information prior to passing to subsequent accounting processing, based on the identified aspect, after receiving the accounting information; and~~

computer code for allowing at least a portion of remaining accounting information to pass to the subsequent accounting processing, after receiving the accounting information;

wherein the portion of the accounting information is discarded to prevent an overload of the subsequent accounting processing.

Claim 27 is newly added as follows:

27. (New) A computer-implemented method for processing network accounting information, comprising:

receiving accounting information over a packet-switched network;

identifying at least one aspect of the received accounting information;

processing at least a portion of the accounting information prior to passing to subsequent accounting processing, based on at least one attribute of the accounting information, after receiving the accounting information;

discarding at least a portion of the accounting information that occurs during a surge in network traffic, based on the at least one identified aspect, after receiving the accounting information; and

allowing at least a portion of remaining accounting information to pass to the subsequent accounting processing, after receiving the accounting information;

wherein the portion of the accounting information is discarded to prevent an overload of the subsequent accounting processing.

### **REASONS FOR ALLOWANCE**

3. Claims 1, 3-5, 7-11, 13-14, 16-19 and 24-27 are allowable over the prior art of record.

4. This communication warrants no examiner's reason for allowance, as applicant's reply makes evident the reason for allowance, satisfying the record as whole as required by rule 37 CFR 1.104 (e). In this case, the substance of applicant's remarks in the Appeal Brief filed on 29 September 2005 with respect to the amended claim limitations point out the reason claims are patentable over the prior art of record. Thus, the reason for allowance is in all probability evident from the record and no statement for examiner's reason for allowance is necessary (see MPEP 13202.14).

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip B. Tran whose telephone number is (571) 272-3991. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

7. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
